

Slim Line Filter Housings

neoPure Slim Line Filter Housings are manufactured of a durable polypropylene or clear Styrene-Acrylonitrile (SAN). Available with 1/4, 3/8, or 1/2 NPT ports. Housings are available in 5", 10" and 20" lengths and will accommodate a wide range of 2-1/2" to 2-7/8" diameter cartridges.

The reinforced polypropylene cap offers an optional pressure-relief button on the inlet side to relieve pressure inside the housing when changing filter cartridges.

Reinforced polypropylene housings have excellent chemical resistance and are ideal for many residential, commercial and industrial applications. Clear sumps offer on-site examination of the cartridge.

Opaque Slim Line Filter Housings are molded from rugged reinforced polypropylene. They offer outstanding chemical compatibility and are ideal for use in a variety of low-flow applications.

PRODUCT SPECIFICATIONS

Max Temperature
125°F (51°C)

Max Pressure
75 psi (5 bar)*

Materials of Construction

Cap: Polypropylene
Opaque Sump: Polypropylene
Clear Sump: Styrene Acrylonitrile (SAN)
O-Ring: Buna-N

*Temperature ratings vary and depend on pressure and time under load

Tested and Certified

This housing is Tested and Certified by NSF International against NSF/ANSI Standard 42 for material and structural integrity requirements.

NSF/ANSI Standard 42 Certified for material safety and structural integrity only

COMPONENT

Neologic Inc. | Greenville SC | Salt Lake City UT | Houston TX

APPLICATIONS

- Reverse Osmosis
- Residential Plumbing
- Photography
- Beverage
- Ice Maker
- Misting Systems
