

Proactive Protection. **FOR LIFE.**

Safeguard Your Home with a Heavy Duty Lead Filtration System from Pentair

You're always looking for ways to keep your family safe and healthy, and water plays a crucial role in both. We're here to give you the peace of mind that comes with knowing your water is the highest quality it can be.

Undesirable contaminants such as lead and cysts can exist in original water sources or pipes outside your home and can cause a variety of health issues. The Pentair® Heavy Duty Lead Filtration System can reduce these contaminants before they enter your home.

Pentair LR-BB50
Heavy Duty Lead Filtration System
(Cartridge Included)

FEATURES AND BENEFITS

- ◆ Extremely fine filtration to 0.5 microns reduces a wide array of contaminants.
- ◆ Fibredyne[®] technology provides minimal loss of water pressure, even during times of high consumption.
- ◆ Built-in bypass means no disruption to water flow during cartridge change-outs.

Lead

Cysts

NSF/ANSI Standard 53
Certified to reduce cysts
such as *Cryptosporidium*
and *Giardia* by
mechanical means.

EXPERIENCE PEACE OF MIND IN KNOWING YOUR FAMILY CAN ENJOY QUALITY WATER FROM EVERY TAP

PROACTIVE PROTECTION

Lead exposure can affect nearly every system in the body and frequently goes unrecognized. The Pentair® Heavy Duty Lead Filtration System works to reduce lead and other contaminants in the water before they enter your home.

SUPERIOR FILTRATION TECHNOLOGY

Our system features a built-in flow restrictor that ensures fine filtration without sacrificing water pressure, while our proprietary Fibredyne cartridge technology enables 2x the flow efficiency of comparable competitive lead filters.
