**Cabinet:**

High impact polymer cabinet

**Cold Water Refrigeration Unit:**

Convection cooled condenser. Internal, spring mounted, hermetically sealed compressor with automatic overload protector requires no lubrication. Refrigerant is controlled by a capillary tube.

**Cold Water Temperature**

Temperature is controlled by a pre-set thermostat for maximum performance.

**Cold Water Reservoir:**

Type 300 series stainless steel with external refrigerant coil. Molded reservoir insulation is expanded bead polystyrene.

**One-Piece Hot Water Tank:**

420 watt heating element for fast, and efficient heating. Hot tank is a type 300 series stainless steel.

**Hot Water Capacity:**

42 x 6 oz. cups of piping hot water per hour. 1 quart storage tank.

**Hot Water Thermostat:**

Fixed thermostat with safety limiter.

**Hot Water Safety Faucet:**

Self-closing activation requires a two-step action that is easy for adults to use but protects small children.

**Drip Receptor:**

Durable 2-piece drip tray lifts out for easy cleaning.

**Electrical:**

115 volts, 60 hertz. 1/12 hp water cooler compressor. Three wire service cord & polarized plug.

**Certifications:**

Model listed by Canadian Standards Association (CSA) to UL U.S. and Canadian Standards. Energy Star Certified.

**Warranty:**

Limited 2-year warranty (within the Continental Limits of the U.S. and Canada). Two years on the sealed refrigeration system, one year on most component parts. Detailed warranty certificate enclosed with each cooler; sample copy available upon request.
