

MPS Spa Check 3 in 1

Monopersulfate, or MPS, helps to maintain and increase the life of your sanitizer. MPS Spa Check™ 3in1 is the perfect solution for pool & spa owners who use MPS.

Test Procedure:

Simply dip one test strip into your pool or spa for **5 seconds** with a gentle back-and-forth motion. Remove the strip and shake once, briskly to remove excess water. **Wait 15 seconds** for colors to develop. Compare test pads with color chart on the bottle **within the next 30 seconds** for best results.

Detection Range:

Monopersulfate: Low - OK - High

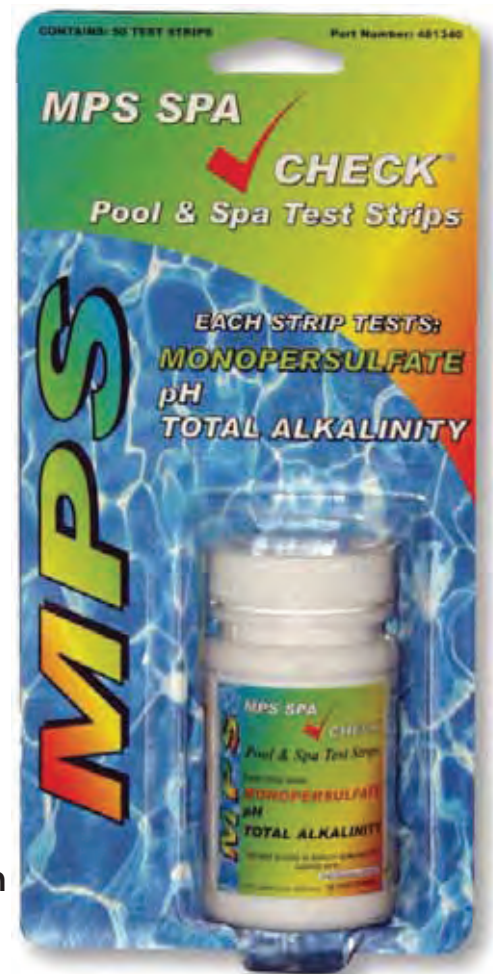

pH: 6, 6.4, 6.8, 7.2, 7.6, 8.2, 9

Total Alkalinity: 0, 40, 80, 120, 180, 240, 360 ppm

Packaging:

Bottle of 50 test strips
