

A dynamic, high-speed photograph of water splashing, creating a complex pattern of droplets and bubbles. The water is captured in mid-air, with some droplets appearing as sharp spheres and others as elongated, flowing shapes. The background is a soft, out-of-focus blue, which makes the sharp water droplets stand out. The overall color palette is monochromatic, consisting of various shades of blue and white.

FloLogic[®]

Respect the Power of Water

**Protect Your Property from Water's Destructive Power with
FloLogic[®] System Smart Leak Detection**

Plumbing Leak Facts

- **8.1% of homes** experience a plumbing leak each year (*U.S. Housing Study*)
- The odds are **in favor of plumbing leaks¹**:
 - Fire damage: 1 in 333 homes per year
 - Burglary: 1 in 36 homes per year
 - Plumbing leak: 1 in 12 homes per year
- Plumbing leaks cause more than **\$10 billion in claims** paid by U.S. insurers annually (*Insurance Information Institute*)
- Leaks **destroy property**, cause mold infestation and can jeopardize future insurance coverage
- However, catastrophic leak damage is **entirely preventable!**

¹ Facts compiled from: National Fire Protection Association, FBI Statistics, U.S. Housing Survey

Potential Leaks Lurk Throughout Your Home

- **Plumbing Supply Lines**—hoses that connect to washers, icemakers, toilets and other appliances often fail
- **Appliances**—most water heater lifecycles end with a leak, while washers and refrigerators experience multiple failure points
- **Pipes and Fittings**—aging systems, certain water types, faulty installations and defective parts cause pipes to leak and burst
- **Faucets and Fixtures**—drips that go down the drain waste water, while other failures destroy property

The Threat of Water Damage Can Be Virtually Eliminated

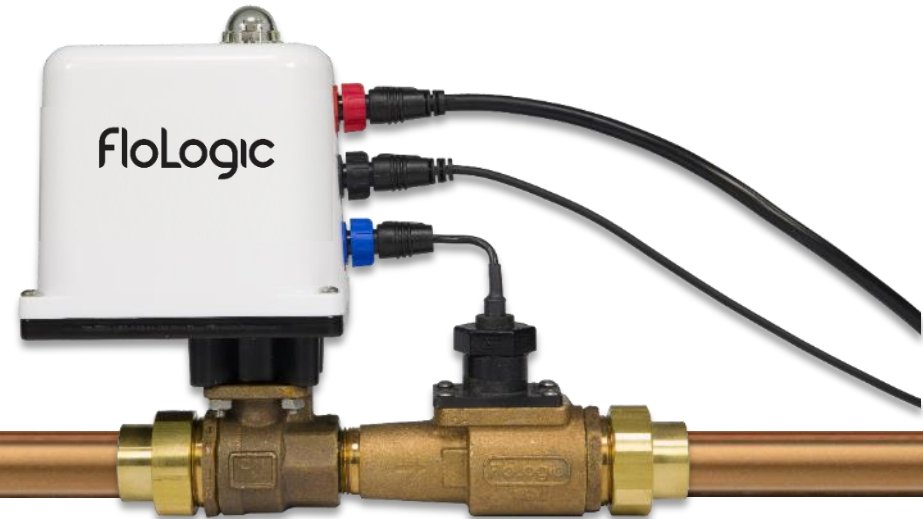

The FloLogic automatic leak detection and shutoff System....

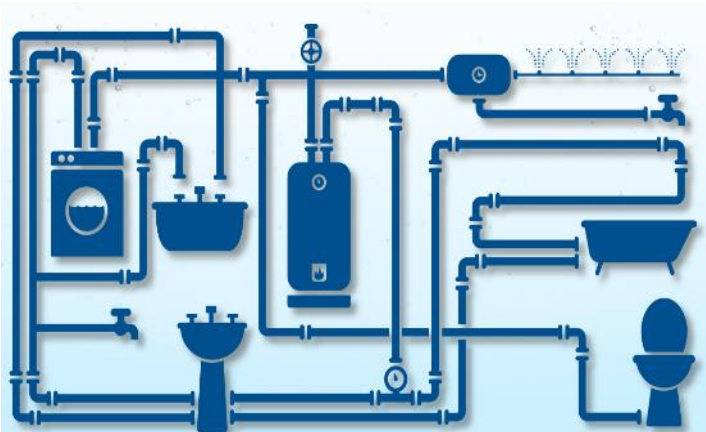

- Recognizes leaks anywhere in the plumbing system, from pinhole-size to high volume
- Automatically shuts off water
- Prevents most damage and eliminates risk of catastrophic leak damage

How it Works

Normal water use happens in intervals. Leaks start and don't stop. The FloLogic System detects those leaks—big and small—and automatically stops them.

Unlike other leak detection technologies, the FloLogic System catches leaks throughout the entire plumbing supply system.

FloLogic—Leaders in Flow-Based Leak Detection and Automatic Shutoff

Proven. Made in the USA since 2000, regulatory approved with tens of thousands of units installed.

Accurate. Digital intelligence continuously detects and reports specific flow volumes - beginning at ½ oz./minute (about a drip per second).

Invisible. Single connection to main supply line provides system-wide monitoring 24/7

Easy. Adjustable to household water use and occupancy. Simple integration with home's existing security system.

Flexible. Operates during power outages. Waterproof for outdoor installation. Available in 1" and 1.5" valves (2" valve available in 2018).

Connected. App-based control (2018 launch)—compatible with all previously sold models.

Highly Reviewed

FloLogic is the most reviewed flow-based leak control device. Unfiltered reviews are certified by TrustPilot.

“I've had Flologic installed several years ago in my vacation house without the need for it until this winter when there was a short to the thermostats that controls the heat. A pipe in the upstairs bathroom froze, expanded, and then cracked. After the house warmed up, the pipe leaked a small amount of water only to be shut down by the Flologic system. Without the Flologic system, the house would have been flooded. Flologic should be installed in ALL houses.”

FloLogic has been featured in leading home, technology and industry publications.

Peace of Mind from Plumbing Leaks is Simple

- 1. Order** Visit FloLogic.com or call 877-FLOLOGIC (356-5644) be sure to mention your insurance carrier to learn of potential discounts
- 2. Install** Any licensed plumber can install the System, or simply ask FloLogic for a recommended professional in your area
- 3. Rest Assured** Whether home or away, you can relax knowing your valued property is protected against catastrophic leak damage when you have the FloLogic System
