*Grommets come pre-installed.

Assembly Instructions

1. Check parts list and verify that all parts are included.
2. Take both 9" pieces of 3/16" clear tubing (E) and connect to air pump (C).
3. Take the 3/16" tee fitting (F) and connect to other end of 9"- 3/16" clear tubing (E).
4. Attach 30" piece of 3/16" clear tubing (D) to remaining side of 3/16" tee fitting (F).
5. Push 3/16" clear tubing (D) through 3/8" grommet (L) on the top of the mesh lid (A).
6. After tubing is pushed through mesh lid, attach 4" air stone (G) to other end.
7. Fill the bucket (B) just to the bottom of the mesh bucket lid (A), and mix in nutrients.
8. Drop the 4" air stone (G) into the water and attach 8" mesh bucket lid (A).
9. Add Hydroton™ (J) grow media to the 8" mesh bucket lid (A), plug in air pump (C), and begin growing.

Note: We recommend that you rinse the Hydroton™ before use to keep system clean and free of any debris.
