

COPPER

POOL ✓ CHECK™

PART NUMBER 481348

Pool Check™ Copper 3in1 is the world's first test strip designed to measure Copper sanitizer levels used in alternative sanitizing systems (for both liquid and granule copper sulfate pentahydrate and ionizing systems). Combined with pH and Total Alkalinity readings, Pool Check™ Copper 3in1 satisfies your testing needs where others fall short.

Test Procedure:

Simply dip one test strip into your pool or spa for **5 seconds** with a gentle back-and-forth motion. Remove the strip and shake once, briskly to remove excess water. **Wait 15 seconds** for colors to develop. Compare test pads with color chart on the bottle **within the next 30 seconds** for best results.

Detection Range:

Copper: 0, 0.2, 0.4, 0.6, 0.8, 1, 2 ppm

pH: 6, 6.4, 6.8, 7.2, 7.6, 8.2, 9

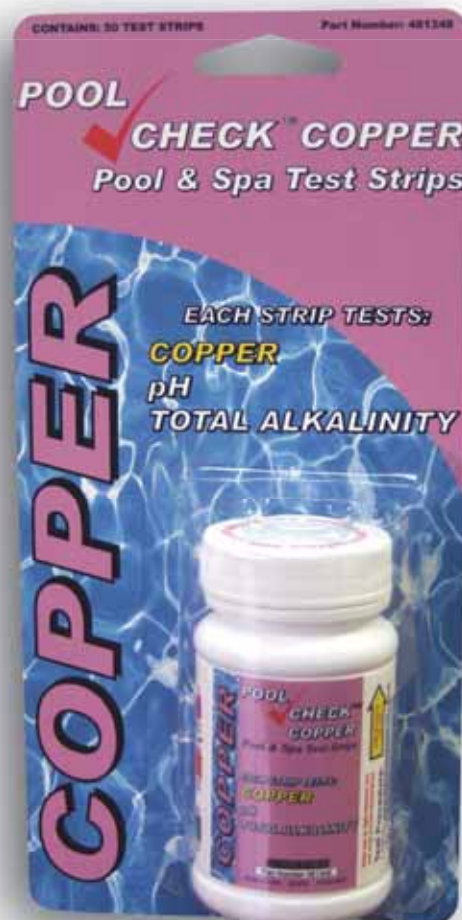

Total Alkalinity: 0, 40, 80, 120, 180, 240, 360 ppm

Packaging:

Bottle of 50 test strips

Available In Multilingual Packaging With Translated Instructions. Languages Include: English, French, German, Italian, Portugese, & Spanish.

Also Available For Private Label.
