

Crystal Ball® For The Bath

Remove up to 100% of free chlorine for a healthier bath. Your skin feels better and looks younger.

- Healthier, younger-looking skin
- Improved lathering and sudsing
- Relief from dry skin
- Safe for infants, adults & pets
- Non Toxic
- Replaceable filter media
- No plumbing or fittings. Just circulate in bath water.
- Dechlorinates in minutes

- New Bath 3000**
- ★ New Larger Design
 - ★ Better Water Flow
 - ★ More Media
 - ★ Improved Locking Tabs
 - ★ Sturdier Housing

How does the Crystal Ball® Bath 3000 work?

When water comes in contact with the media filaments inside the fabric pouch, the chlorine ions in the water are converted into a harmless chloride. The toxic effects of chlorine, chloramine, and chlorine gas are eliminated with the aid of KDF Formula 73, available exclusively through Rainshow'r. More chlorine is removed faster when there is adequate circulation of the Crystal Ball® in the water.

RB3 Crystal Ball® Replacement Bag

Quartz crystals mixed with the media filaments reduce the molecular structure of the water into smaller clusters, thereby allowing enhanced sudsing and lathering of soap.

The bath water is healthier and feels better. Your skin can return to its natural organic balance.

Using the Crystal Ball® is easy

You dechlorinate your bath water with the Crystal Ball® by placing it into the tub and pulling it through the water with the attached 12-inch cord for a few minutes. As chlorinated water flows through the filament the dissimilar metals in KDF, (copper and zinc), create a galvanic or electrolytic reaction which causes the two chlorine ions to form a harmless chloride. It changes the chlorine from an element into a harmless compound.

In addition to the KDF filament, the Crystal Ball® also uses our specially washed and sun dried quartz crystals to help "energize" the water by reducing the water's surface tension. This allows for an increase in sudsing and lathering of soaps and shampoos. As a result, the water has a "lighter" feel, similar to the feeling of softened water.

CQ-1000 Dechlorinating Shower Filter

For a Healthier, More Enjoyable Shower... The Rainshow'r® Way

A better, healthier shower

You deserve healthier water in every aspect of your daily life, not just the drinking water. Our Rainshow'r® CQ-1000 dechlorinating shower filter provides a long lasting solution to the problems associated with exposure to excessive amounts of chlorine. Its specially-formulated KDF® filter media effectively removes 90% or more of chlorine from shower water. Once in contact with the KDF, chlorine in the water converts into an environmentally safe and harmless soluble chloride.

Chlorine is considered one of the most toxic elements found in nature.

Because of this superior chlorine removal, you will see changes in the way your hair and skin feel including...

- healthier, younger looking skin
- softer, more manageable hair
- relief from dry skin & scalp
- less fading in color-treated hair

The CQ-1000NH is also available with name brand shower heads such as the:

- * Highest Rated—
Whedon chrome plated fixed-action designer head.
- * Internationally Recognized—
Amcor Massage head with spray, massage and pause position in white and chrome.
- * Handheld shower kits in white or chrome by Whedon or Amcor.

Rainshow'r® uses a number of shower heads, Handheld kits and water control devices. These are water delivery mechanisms only. They are not performance tested or certified by NSF. Only the filter is certified.
