

MBG-45200-01

Grooved Sediment Filter

Residential / Commercial / Industrial
Municipal Filtration Applications

Standard Features

- Works as a prefilter and postfilter all in one, eliminating the need for step-down filtration systems in your home
- 100% pure polypropylene makes it resistant to chemicals and corrosion
- Will not add taste, odor, or color to the liquid being filtered
- Three times the dirt-holding capacity of similar-sized sediment water filter cartridges
- Designed for purity, bacteria resistance, and chemical resistance

Product Specifications

Filter Media

100% Spun Bonded Polypropylene

Micron Rating (Nominal)

1 micron

Dimensions

4-1/2" dia. x 20"

Cartridge Style

Drop-In

Operating Temperature

30 to 140° F*

Capacity

6,665 Gallons

Case Pack

25 per case

WARNING:

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

Applications

- 1 Microelectronics
- 2 Reverse Osmosis Prefiltration
- 3 Food and Beverage
- 4 Waste and Wastewater
- 5 Photo Solutions
- 6 Chemicals
- 7 Potable Water
- 8 Plating Processes
