

# HDG-P117

GRANULAR ACTIVATED CARBON FILTER

- Reduces taste, odor, and chlorine
- Dirt, rust and sediment reduction
- 5 micron sediment filtration

## HYDROGUARD HDG-P117 FILTERS

Are ideal for whole house pre filtration for the reduction of taste, odor, and chlorine. It's rigid construction eliminates sediment unloading and yield a low pressure drop.

## HYDROGUARD HDG-P117 CARTRIDGES

Are manufactured with FDA CFR-21 compliant materials and provide a flow rate of up to 3 gallons per minute for point-of-entry applications.

**Temperature rating:** 48°F - 100°F

**Flow rate:** 3 GPM
