

Spa Check 3 in 1

3in1 Spa Check™ offers the user more than just another test strip; it offers accurate results that you can rely on. 3in1 Spa Check™ is the first test strip specifically designed for the spa owner. Giving a true total bromine reading (bromine + bromamines), 3in1 Spa Check™ is the only way to ensure proper chemical balance and safety.

Test Procedure:

Simply dip one test strip into your pool or spa for **5 seconds** with a gentle back-and-forth motion. Remove the strip and shake once, briskly to remove excess water. **Wait 15 seconds** for colors to develop. Compare test pads with color chart on the bottle **within the next 30 seconds** for best results.

Detection Range:

Total Bromine: 0, 1, 3, 6, 9, 12, 20 ppm

Total Alkalinity: 0, 40, 80, 120, 180, 240, 360 ppm

pH: 6.0, 6.4, 6.8, 7.2, 7.6, 8.2, 9.0

Packaging:

Bottle of 50 test strips
