

HDPE GROUND PROTECTION MAT

Ground Protection Mats provide a durable, portable roadway or stable work platform for tracked and wheeled equipment while also serving as a reliable composite flooring solution for marine applications, including boat decks and docks.

Made from 100% Recycled Material, these solid-surface mats are a reusable alternative to plywood that resist moisture, chemicals, mold, mildew, rot, and warping while delivering a smooth, easy-to-clean surface capable of withstanding demanding job site and outdoor conditions.

SPECIFICATIONS

- UV Resistant
- Made from durable recycled HDPE that resists moisture, chemicals, rot, warping, mold, and mildew
- Weight Load Rating - Equipment up to 120 ton can vary depending on sub surface.
- Tread - Diamond tread for traction, reverse side smooth

APPLICATIONS

- Ground Protection
- Marine Decking
- Composite Flooring
- Rutting Prevention
- Oil, Gas, & Water Well Drilling
- Temporary Access Roads
- Farm Machinery
- Construction
- Work Platforms
- Construction Sites
- Staging Areas
- Plumbing
- Aviation Landings
