Snapshot

OptiClean Descaling Compound is an acid-based descaler, combined with a proprietary chelating agent, that efficiently and effectively dissolves and removes carbonate, lime-scale and iron scale build-up caused by hard water. OptiClean is safe for your equipment, easy to use, and works faster than other products which use harsh mineral acids that can cause corrosion and pitting on metal surfaces.

Benefits

- Non-Toxic, environmentally safe and biodegradable.
- Includes a corrosion inhibitor to protect equipment.
- Does not require hot water to dissolve.
- Completely soluble and easily rinses from system.
- Will not impact taste of beverages.
- Low-foaming.
- Does not add phosphates to water.
- Food grade.

Application

- Espresso Machines
- Coffee & Tea Brewers
- Instant Hot Water Heaters
- Steamers & Combi Ovens
- Ice Machines
- Thermalizers
- Any scaled surfaces or parts

This product is for commercial use only and must be used according to manufacturer's guidelines.

Packaging

4 lb resealable bottle which includes measuring scoop.

Packaged 4 bottles per case.
