

Safety Cap & Special Lamp Plug

Trojan's safety cap prevents children from accessing the lamp or electrical components. This special lamp plug ensures that nobody can power the UV Lamp if it is not in the UV chamber.

Reference Card

The handy reference card outlines the most important system functions and maintenance for your quick on-the-spot questions.

Test of Sensor Operation

With the push of a button, you can test the proper operation of the UV Intensity Monitor (Models D4+, E4+, and F4+).

Mute Button

If a warning alarm sounds, simply press this button to silence the alarm.

Unique Lamp/Sleeve Assembly

Lamps and Sleeves are assembled together for ease of handling. They can be replaced separately in minutes and without tools.

Confidence in Proper System Operation

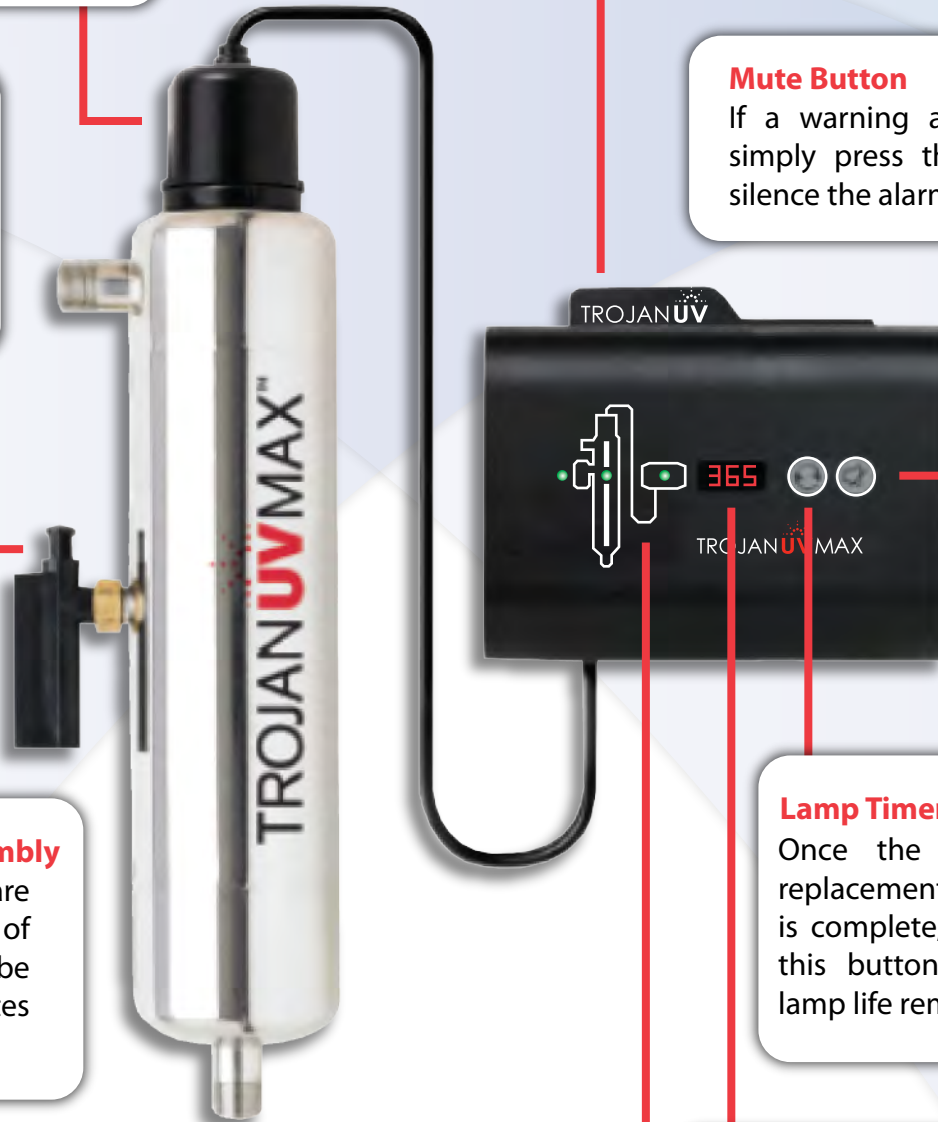

Indicator lights show the status of system components. Warning lights appear when system maintenance is required.

Lamp Timer Reset Button

Once the annual lamp replacement maintenance is complete, simply press this button to reset the lamp life reminder timer.

Lamp Replacement Reminder

The lamp timer starts at 365 and counts down the days to annual lamp replacement.
