

VirusPure Plus

POU Water Treatment

Commercial Grade Twin Series Microbiological Purifier

Benefits of first filter

BH² Cartridge

It is a 1/2 micron precoat filter with AgION[®] antimicrobial protection and reduces limescale build-up in equipment. The BH² is NSF rated for the following:

- Chlorine reduction
- Taste and odor reduction
- Particulate reduction
- Cyst reduction

Benefits of second filter

The Everpure VirusPure™ V-500 Multi-Stage Purifying System reduces the following contaminants: bacteria, virus, particulates, cysts, volatile organic chemicals VOCs, Lead, MTBE, TTHM, chlorine, chloramine, and limescale.

- Reduces viruses up to 99.9999%
- Reduces bacteria up to 99.99%
- Reduces chlorine taste and odor and chloramines
- Reduces dirt, rust and other particulates
- Reduces parasitic protozoan cysts such as Giardia, Entamoeba, Cryptosporidium
- Controls even extreme levels of common "off" tastes and odors, including those which are earthy, moldy, and fishy
- Reduces lead to below Federal Action Level of 10 ppb
- Effectively reduces Volatile Organic Chemicals (VOCs), including Trihalomethanes (THMs)

HEAD AND CARTRIDGES SOLD SEPARATELY

| | |
|----------------------------|--------------------|
| BH ² Cartridge: | EV9612-50 (1 pack) |
| V-500 Cartridge | EV9798-26 (1-pack) |
| Twin Series Head: | EV9798-38 (1 pack) |
| Tri Wall Baffle | EV8002-79 (1 pack) |

Install Tri Wall Baffle (EV8002-79) into the BH Cartridge before installation. The Tri Wall Baffle opens the valve in the head to allow water flow.

Cartridge Tested and Certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of:

Standard No. 42 Aesthetic Effects

- | | |
|--------------------|-----------------------|
| Chemical Reduction | Mechanical Filtration |
| > Taste and Odor | > Nominal Particulate |
| > Chlorine | Reduction: Class I |
| > Chloramine | |

Standard No. 53 Health Effects

- | | |
|--------------------|-----------------------|
| Chemical Reduction | Mechanical Filtration |
| > Lead | > Turbidity |
| > VOC | > Cyst |
| > TTHM | |
| > MTBE | |

Cartridge is certified by NSF International against NSF P231 - Microbiological Water Purifiers based on the recommendations set forth in the USEPA Guide Standard and Protocol for Microbiological Water Purifiers (OPP Task Force Report, 1987)
