

**Wetwoven 2<sup>d</sup> Depth Cartridge Filters**

Remove dusts, particulates, fumes, and odors

Wetwoven 2<sup>d</sup> depth filters are made from a wetwoven glass fiber mat that is pleated and formed into a cylindrical shape. They are designed to remove dusts, particulates, fumes, and odors from air streams.

- 1. High efficiency
- 2. Long service life
- 3. Low pressure drop

**Specifications:**

- 1. Material: Glass fiber
- 2. Pleat depth: 30mm
- 3. Filter efficiency: 99.99%
- 4. Pressure drop: 150Pa
- 5. Service life: 6 months
- 6. Temperature range: 0-120°C
